Thurston-Mason County Medical Society
Membership Directory
We are committed to helping and supporting the primary care provider when their patient has experienced an injury from work.

We use an interdisciplinary approach to pain treatment, addressing the physical and psychological wellbeing, to influence a positive pain treatment outcome.

Our programs demonstrate vast improvements, and more cost effective options, when compared to alternative pain treatment center approaches.

With 30 years of experience, and a 91% treatment satisfaction rate, we confidently serve patients with these needs:

- Return-to-Work
- Pain Treatment
- Opioid Elimination
- Behavioral Health Services

I AM PROUD TO BE YOUR ELECTED PRESIDENT during the 132nd consecutive year of our Society—providing medical care to not only the residents of Thurston and Mason Counties, but to many residents of surrounding counties from referrals by medical colleagues, clinics and hospitals.

I look forward to another year of working together to advance our common mission: Promoting the art, science and practice of medicine to protect and improve the health of all who come under our care.

I hope that we can have some fun as well. Please mark your calendar for your Society’s first gala: Saturday, March 26, 2016, 6 pm, at Indian Summer Golf and Country Club. Let’s all make it a night to remember!

Leafing through this 2015 edition of our membership directory, it is gratifying to see so many colleagues’ names and specialties. In this rapidly changing medical environment, it is reassuring to know that help is just a phone call or email away. I am amazed by how our medical community has grown in the 34 years that I have had the privilege and honor to practice medicine in Thurston County. Not only have our numbers grown, but the quality of medicine has improved with the help of our hospitals, Providence St. Peter Hospital, Capital Medical Center and Mason General Hospital. While some problems of access to health care remain, federal and state initiatives have enabled more residents than ever to have health insurance coverage.

I hope this directory will continue to assist physicians, staff, hospital personnel and other health care professionals to communicate on a regular basis. Thank you to all the businesses that support this publication by purchasing advertising space; I hope that it will continue to be a valuable resource to help your businesses grow and thrive.

I also thank all of you listed in this directory for continuing to support your medical society and the state and national organizations in which you have a voice. We are pleased to present this Membership Directory in cooperation with LLM Publications, Inc. Advertisers interested in placing an advertisement in next year’s directory may call LLM Publications at 800-647-1511 or visit their website at www.llm.com.

Lastly, I encourage you to consider a more active role in TMCMS by running for a board seat or volunteering for committee work. If you are not a member, I encourage you to join your colleagues in the Thurston-Mason County Medical Society. From your ideas and passions, we can help drive needed changes in health care. Your membership provides support to your practice, your colleagues, your patients and your community.

Robert Lang, MD
President, Thurston-Mason County Medical Society
Established in 1889, the Thurston-Mason County Medical Society has grown to include over 400 practicing physicians.

The Society’s mission is to:

- Promote the art, science and practice of medicine and the practitioners who pursue these goals;
- Protect and improve the health of the public; and
- Provide leadership for its membership.

The Thurston-Mason County Medical Society (TMCMS) is a constituent of the Washington State Medical Association (WSMA) and the American Medical Association (AMA).

### About TMCMS

Established in 1889, the Thurston-Mason County Medical Society has grown to include over 400 practicing physicians.

The Society’s mission is to:

- Promote the art, science and practice of medicine and the practitioners who pursue these goals;
- Protect and improve the health of the public; and
- Provide leadership for its membership.

The Thurston-Mason County Medical Society (TMCMS) is a constituent of the Washington State Medical Association (WSMA) and the American Medical Association (AMA).

Gamma Knife is the Medicare-approved alternative to open surgery for brain tumors, trigeminal neuralgia, essential tremor, arteriovenous malformations and acoustic neuromas.

State-of-the-art care in Tacoma.
South Sound Gamma Knife in Tacoma has been helping improve patient lives since 2004. Perfexion, the latest Gamma Knife system, improves access to tumors at the base of the skull and offers single-session, leading-edge treatment for multiple metastatic tumors. Only Gamma Knife is uniquely designed for intracranial targets, and with Perfexion, provides full cranial reach.

Local consult available in Olympia.
For patient referral or a list of credentialed, experienced physicians, call 253.284.2438 or toll-free 866.254.3353 or visit www.SouthSoundGammaKnife.com.

Pacific Medical Centers
Primary Care

Family Medicine & Internal Medicine

At Pacific Medical Centers, it's a great place to practice medicine. In a collaborative, multi-specialty environment with leading edge technologies and first-class facilities, we deliver a practice philosophy where the patient truly comes first...and that's a perfect.

We are seeking BC/BE Family Medicine & Internal Medicine Physicians as we expand our presence in Thurston County.

Contact us today about our outpatient practice opportunities with various clinic locations and schedules available!
