Immediate Benefit for WSMA Members

As the endorsed medical professional liability carrier for the WSMA, one of our biggest priorities is providing immediate value to the organization. With local expertise in claims and risk management, we are continually working to ensure the value we provide our WSMA members adds up economically, but also aligns with our members’ goals for patient satisfaction.

- $300 per year premium discount for WSMA members*
- More than $21 million in dividends to WSMA members over the last 7 consecutive years**
- Free access to risk management consultation, education, training, assessments, publications, HFMA resources, and hundreds of forms and tools for the practice environment to support safety and patient satisfaction (estimated retail value of $20,000)

*Premium discount does not apply to alternative retail amounts.
**Dividends are not guaranteed.
We are committed to helping and supporting the primary care provider when their patient has experienced an injury from work.

We use an interdisciplinary approach to pain treatment, addressing the physical and psychological wellbeing, to influence a positive pain treatment outcome.

Our programs demonstrate vast improvements, and more cost effective options, when compared to alternative pain treatment center approaches.

With 30 years of experience, and a 91% treatment satisfaction rate, we confidently serve patients with these needs:

- Return-to-Work
- Pain Treatment
- Opioid Elimination
- Behavioral Health Services

Find out more and make a referral today at www.pacificrehabilitation.com or phone us.

From the WSMA President

THE WASHINGTON STATE MEDICAL ASSOCIATION Official Membership Directory is produced to assist physicians, their staff, hospital personnel and other health care professionals who need to communicate on a regular basis. The directory is also a valuable resource to business entities that frequently interact with the health care community in general, and physician practices specifically.

The physicians who are listed in this directory are WSMA members. I hope that physicians not listed in this year’s directory will choose to be included next year by joining the WSMA.

WSMA is pleased to present this membership directory in cooperation with LLM Publications, Inc. Companies interested in advertising in next year’s directory may call LLM Publications at 800-647-1511 or visit their website at www.associationpublications.com.

Additional copies of the WSMA membership directory can be ordered online at www.WSMA.org or by calling the WSMA at 206-441-9762 for assistance.

Sincerely,

Brian Seppi, MD, President

LAKESIDE-MILAM RECOVERY CENTERS
Effective, Affordable Alcohol & Drug Treatment
Inpatient & Outpatient Programs
NATIONALLY RECOGNIZED & UNIQUE PROGRAMS FOR:
• Adults  • Adolescents  • Family Members
  • Free services to assess the problem
  • 24-hour admitting and counseling
  • Gender specific groups
  • State licensed and CARF accredited
  • Covered by most health insurance
  • Medical detoxification

800-231-4303
www.lakesidemilam.com
Nine outpatient centers, adolescent and adult detox, residential,
and long-term care in the Puget Sound area since 1983.

Norton Sound Regional Hospital ranked
Among the Top 20 Most Beautiful Hospitals in the U.S.!

Norton Sound Health Corporation was one of the first native health organizations in the country to assume responsibility for the medical care of the people it serves. Located in western Alaska, our region offers some of the most beautiful scenery that Alaska has to offer! Herds of reindeer, moose, bear, fox, otter and musk ox are commons sights. The tundra is covered with berries, greens, and edible mushrooms. Rolling mountains, rivers and lakes offer excellent fishing, hunting, hiking and beach access. Positions available in our hospital in Nome, Alaska.

Norton Sound Health Corporation, based in Nome, Alaska, was founded in 1970 to serve the health care needs of the Inupiat, Siberian Yupik and Yupik people of the Bering Strait region of Alaska. NSHC is a consortium of 20 tribes that have assumed responsibility for the medical care of the people it serves and operates Norton Round Regional Hospital and 15 village clinics located on the coast and islands of the Bering Sea.

Today NSHC is the primary source of continuous health and medical care for all of the residents of the region. We have clinical and support positions available. Consider joining us. Nome is a great place to live and work! Please visit our website at www.nortonsoundhealth.org.

Spirited Performance with Calculated Precision

At the heart of the medical field are the professionals who fuel skillful precision with unwavering dedication. To honor your unending drive for excellence, Mercedes-Benz is proud to offer AMA members exclusive incentives toward the purchase or lease of a new vehicle.

When you want a vehicle that reflects your dedication to quality, performance and innovation, visit ama-assn.org/go/mvp-mercedes-benz to learn how to get behind the wheel of a new Mercedes-Benz.

Take advantage of your AMA MVP Program benefits.

Our resources fit you and your practice.

The American Medical Association brings you access to practice resources and savings on pharmaceuticals, medical supplies and equipment, tech products, travel, practice financing, and financial and insurance services. It’s time to get the benefits that fit your needs!

amamvp.com
The self-designated specialty classifications listed below DO NOT imply Washington State Medical Association "endorsement" or "recognition" of any field of medical practice. The WSMA’s list for self-designation of specialty was developed to meet WSMA’s record keeping needs and to assist physicians in describing their primary and secondary fields of practice.

Another indication of a physician’s specialization is American Specialty Board Certification, which indicates that a physician has received preparation in accordance with established educational standards of one or more of the 24 member boards of the American Board of Medical Specialties. The licensed physician may practice any specialty regardless of board certification status. Therefore, both self-designated specialty and board certification are appropriate descriptions of a physician’s practice. Note: No code appears for those physicians who have not designated a practice specialty.

2015 Official Membership Directory
Studies show early discussion and planning for end-of-life issues are linked to better outcomes for both patients and families.

Starting the conversation about end-of-life planning with your patients can be tough, but it's important to integrate it into routine, patient-centered, preventive care.

To assist you in encouraging your patients to plan for the future, visit HonoringChoicesPNW.org. The comprehensive website helps people create end-of-life care plans and guides them through sharing those plans with loved ones and health care providers. The resources and tools on the website are free and available to everyone. Health care professionals can also find valuable resources on the site and participate in trainings to prepare them for having conversations around end-of-life care, recording patient wishes and ultimately honoring those choices.
CPAP INTOLERANCE
EFFECTIVE ALTERNATIVE
Oral Appliances specifically for Sleep Apnea & Snoring

PRACTICE LIMITED TO SLEEP APNEA & SNORING FOR 21 YEARS. Our evaluation protocol and diagnostics provide patients with an objective assessment for a more predictable prognosis and treatment.

PRIMARY CARE PROVIDER OPPORTUNITIES
With Providence, Swedish and Pacific Medical Centers

Providence Health & Services is now affiliated with Swedish Health Services, Pacific Medical Centers and Kadlec Health System, covering Washington. Providence also operates in diverse communities across four other western states.

Together, our not-for-profit systems are recruiting for more than 50 primary care practice opportunities in Washington, Alaska, Oregon, Montana and California. We offer providers the stability of a strong and growing multi-state organization with a commitment to innovation, collaboration and health care reform that makes us employers of choice in the markets we serve.

Join us in Washington state, or elsewhere in the West.

WE GET RESULTS. Critical issues affecting today's physicians are being decided in the legislative arena. We have strong legislative relationships and fight hard to pass laws that help physicians practice medicine and to defeat proposals that undermine patients and the practice of medicine.

YOU HELP PATIENTS ON THEIR PATH TO BETTER HEALTH.

And we're here to help you succeed. You offer your patients the care they need to get well and stay healthy. But when they need inpatient, emergency or urgent care; advanced diagnostic and treatment technologies; or any of a wide range of specialty care services, MultiCare will partner with you to provide the best possible care and a quality patient experience.

HEALTH IS A JOURNEY. LET'S GET THERE TOGETHER.

Gamma Knife is the Medicare-approved alternative to open surgery for brain tumors, trigeminal neuralgia, essential tremor, arteriovenous malformations and acoustic neuromas.

State-of-the-art care in Tacoma
We offer Perflexion™, the latest Gamma Knife system. Perflexion improves access to tumors at the base of the skull and offers single-session, leading-edge treatment for multiple metastatic tumors. Only Gamma Knife is uniquely designed for intracranial targets, with radiological accuracy better than 0.5mm.

For patient referral or a list of credentialed, experienced physicians, call 253.284.2438 or toll-free 866.254.3353 or visit www.SouthSoundGammaKnife.com.
